

template.iswritable

Description

boolean `template.iswritable(array templateIds)`

This method checks if the given templates are available for writing.

Parameters

(array) IDs of the templates to check.

Return values

(boolean) Returns `true` if the given templates are available for writing.

Examples

Check multiple templates

Check if the two templates are writable.

Request:

```
{
  "jsonrpc": "2.0",
  "method": "template.iswritable",
  "params": [
    "10001",
    "10081"
  ],
  "auth": "038e1d7b1735c6a5436ee9eae095879e",
  "id": 1
}
```

Response:

```
{
  "jsonrpc": "2.0",
  "result": true,
  "id": 1
}
```
