

## 7 Audit

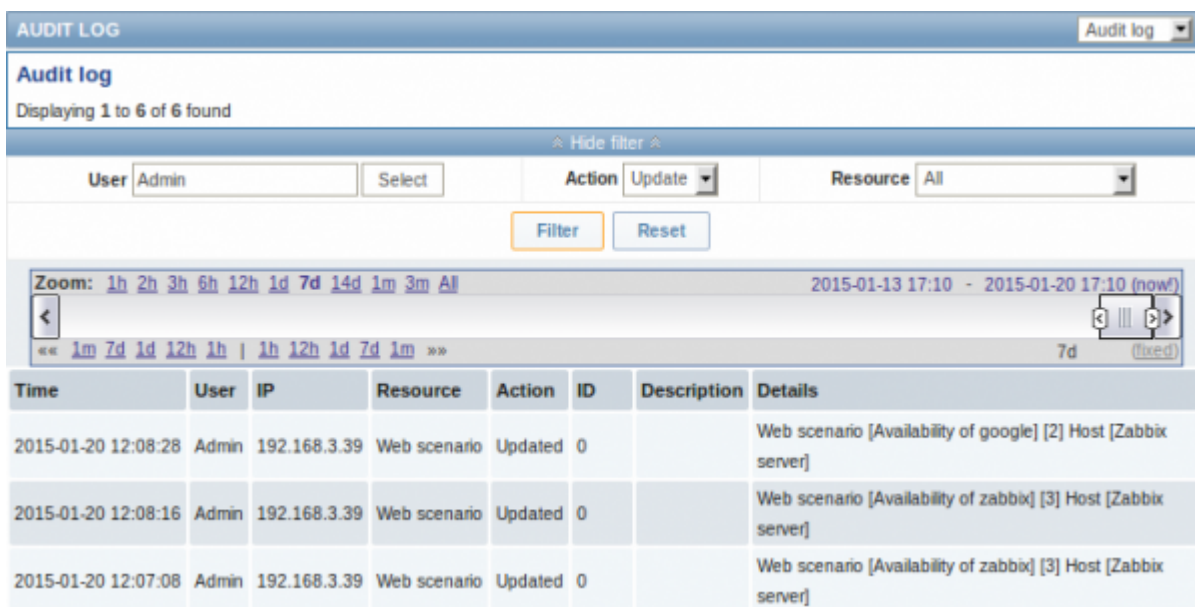

### Overview

In the *Administration* → *Audit* section users can view records of changes made in the frontend and details of executed actions.

By default frontend audit records are displayed. To switch to action details and back, use the dropdown in the top right-hand corner.

### Audit log

In this screen the audit log of various changes made in the frontend can be seen. You can use the filter, located below the *Audit log* bar, to narrow down the records by user, activity type, affected resource and the time period.

Displayed data:

Column	Description
<i>Time</i>	Timestamp of the audit record.
<i>User</i>	User of the activity.
<i>IP</i>	IP that was used in the activity.
<i>Resource</i>	Affected resource is displayed.
<i>Action</i>	Activity type is displayed - <i>Login, Logout, Added, Updated, Deleted, Enabled or Disabled.</i>
<i>ID</i>	ID of the affected resource is displayed.
<i>Description</i>	Description of the resource is displayed.
<i>Details</i>	Detailed information on the performed activity is displayed.

### Action log

In this screen details of operations (notifications, remote commands) executed within an action are

displayed.

You can use the filter, located below the *Action log* bar, to narrow down the records by recipient of e-mail and time period.

Time	Action	Type	Recipient(s)	Message	Status	Info
2015-01-21 11:04:09	Report problem and restart apache	Email	Admin (Name Surname) Martins.Valkovskis@zabbix.com	<b>Subject:</b> PROBLEM: Processor load is too high on New host  <b>Message:</b> Trigger: Processor load is too high on New host Trigger status: PROBLEM Trigger severity: Warning Trigger URL:  Item values:  1. Processor load (1 min average per core) (New host:system.cpu.load[percpu,avg1]): 3.395 2. *UNKNOWN* (*UNKNOWN*:*UNKNOWN*): *UNKNOWN* 3. *UNKNOWN* (*UNKNOWN*:*UNKNOWN*): *UNKNOWN*  Original event ID: 48029	In progress: 3 retries left	
2015-01-21 11:01:09	Report problem and restart apache	-		<b>Command:</b> mmd desk:sudo rcapache2 restart	Executed	
2015-01-21 10:58:08	Report problem and restart apache	Email	Admin (Name Surname) Martins.Valkovskis@zabbix.com	<b>Subject:</b> PROBLEM: Processor load is too high on New host  <b>Message:</b> Trigger: Processor load is too high on New host Trigger status: PROBLEM Trigger severity: Warning Trigger URL:	Sent	

Displayed data:

Column	Description
<i>Time</i>	Timestamp of the operation.
