

mediatype.create

Description

object mediatype.create(object/array **mediaTypes**)

This method allows to create new media types.

Parameters

(object/array) Media types to create.

The method accepts media types with the [standard media type properties](#).

Return values

(object) Returns an object containing the IDs of the created media types under the `mediatypeids` property. The order of the returned IDs matches the order of the passed media types.
