

18. Web 界面

Overview

For an easy access to Zabbix from anywhere and from any platform, the web-based interface is provided.

Trying to access two Zabbix frontend installations on the same host, on different ports, simultaneously will fail. Logging into the second one will terminate the session on the first one - unless the default frontend session name is adjusted for the second frontend in frontend [definitions](#) (see ZBX_SESSION_NAME).

概述

为了便于从任何地方和任何平台访问Zabbix提供了基于Web的界面。

尝试在同一主机上，不同端口上同时访问两个Zabbix前端安装将会失败。登录到第二个时，会终止在第一个中的进程 - 除非在前端[定义](#)中，为第二个前端调整默认前端进程名称（查看ZBX_SESSION_NAME）。
